

## Software Release Notes

### DEX Store Front Version 3.02

#### Overview

DEX/UCS is a standard for paperless data exchange of delivery information at the back door of a retail store. DEX Store Front is a test tool for use by software developers or consumer goods companies who are developing DEX applications for use on mobile computers. DEX Storefront mimics a retailer's DEX system so you can send and receive DEX transactions between a pc and a mobile computer without being connected to a production DEX system.

DEX Store Front Version 3.00 supports DEX standard 5030UCS. It also features an updated user interface.

#### Version numbers

Major Deliverable	Release Version	Current Version	Build Date
DEX Store Front	3.02	3.02.00.0057	03/23/2015
DEX Store Front	3.01	3.01.00.0052	05/19/2011
DEX Store Front	3.00	3.00.00.0021	11/30/2009

## System Requirements

DEX Store Front can be installed on a PC with the following minimum system requirements.

Operating System:	<ul style="list-style-type: none"><li>• Microsoft Windows XP</li><li>• Microsoft Windows Vista</li><li>• Microsoft Windows 7</li></ul>
Disk Space:	<ul style="list-style-type: none"><li>• 1.3 MB of available disk space</li></ul>
DEX Cables / Adapters:	<ul style="list-style-type: none"><li>• PC DEX cable (9 pin D-Sub to female RCA connector) Intermec part# 216-427-001</li><li>• DEX adapter and cable appropriate for the Intermec mobile computer you are using</li></ul>

- A license is required at install time to activate DEX Store Front. To get a license, order Intermec part# 454-036-001 (License, DEX Store Front ) from your Intermec representative. This license includes updates for the first year.
- To receive software updates beyond the first year, including updates for latest DEX standards, order Intermec part# DEXSF-SFT1 (Maintenance, DEX Store Front, 1year) from your Intermec representative.

## Installation Notes and Compatibility

### To Install:

1. Download and run the installation file.
2. Follow the on-screen instructions to complete the installation. After installation the toolkit can be found in the following location: C:\Program Files\Intermec\DEX Store Front
3. DEX Store Front can be launched from the Start menu (Start->Programs->Intermec->DEX->DEXStoreFront) or via the desktop icon.
4. The first time you start DEX Store Front you will be prompted to activate the software. Your activation ID is found on the entitlement e-mail you received from Intermec. DEX Store Front does not operate in demonstration mode.

### Further Assistance

For assistance with any technical issues, contact Intermec Support at <http://intermec.custhelp.com>

### Supported Devices

DEX Store Front is compatible with Intermec computers which support a DEX adapter (i.e. peripheral for DEX communications). This includes Intermec CN3 / CN3e, CN4 / CN4e, CN50, and CN70 series mobile computers.

# New Functionality

## Version 3.02

- Correct installation error where a specific version of the LMApi.dll version was being checked for.
- Corrected issue when using the G7203 – Allowance or Charge Number was transmitted.

## Version 3.01

- An error can occur when you try to install Intermecc software using an invalid version of agent.exe. Agent.exe is part of Intermecc's 3rd-party software update system called **FLEXnet Connect** – more commonly known as **Intermecc Update**. Several Intermecc Software components utilize FLEXnet Connect, such as SmartSystems, All IDL Resource Kits and Toolkits, DEX Toolkit and *Verdex*. *This error may also occur if any 3rd party software utilizing version newer than v6 of FLEXnet Connect has been installed on your system. . If you encounter an error similar to: ""The file 'agent.exe.4747EFCD\_A8CE\_4016\_80F6\_BCAD9FE72' is not marked for installation."* please contact Product Support or Developer Support

## Version 3.00

- Added support for DEX/UCS 5030.
- Updated User Interface.
- DEX Store Front was previously available exclusively through the Intermecc Software Services team, but is now sold as a standard product.
- DEX Store Front was previously delivered on CD-ROM. It is now distributed electronically.
