

## Software Release Notes

MobileDEX  
Version 3.00

### Overview

MobileDEX is a mobile application which performs DEX transactions. DEX/UCS is a standard for paperless data exchange of delivery information the back door of a retail store. MobileDEX is built on Intermec's DEX Toolkit for .NET and can be used for several purposes:

- Demonstrate an application that may be built using the DEX Toolkit for .NET
- Companion application for use with DEX Store Front to become familiar with DEX transactions. (This application was previously included with DEX Store Front as MiniDEX)
- Use in conjunction with a mobile application as a DEX solution.

### Version numbers

Major Deliverable	Current Version
MobileDEX	3.00.00.0007

## System Requirements

<b>Mobile Computer:</b>	MobileDEX will work with the following Intermec mobile computers: <ul style="list-style-type: none"><li>• CN3 / CN3e (Windows Mobile 6.0 or Windows Mobile 6.1)</li><li>• CN4 / CN4e (Windows Mobile 6.1)</li></ul>
<b>DEX Cables / Adapters:</b>	<ul style="list-style-type: none"><li>• DEX adapter and cable appropriate for the Intermec mobile computer you are using</li></ul>
<b>DEX Host:</b>	To complete a DEX transaction, a DEX host system is required. Intermec's DEX Store Front software may be used instead of a retailer's DEX system for testing purposes.

- MobileDEX is fully functional for 60 days. After 60 days, a license is required for the software to continue to operate with full functionality. To get a license, order Intermec part# 454-038-001 (License, MobileDEX ) from your Intermec representative. This license includes updates for the first year.
- To receive software updates beyond the first year, including updates for latest DEX standards, order Intermec part# DEXTK-SFT1 from your Intermec representative.

## Installation Notes and Compatibility

### To Install MobileDEX

1. Download the file to a pc and run the installation file.
2. Follow the on-screen instructions to complete the installation on the pc.
3. After installation is complete, the MobileDEX cab file and User's Guide will be installed at C:\Program Files\Intermec\MobileDEX\_v3.0. Software may be installed on a mobile computer via ActiveSync.
4. In addition, if your PC is running Intermec SmartSystems, you will also find the software in the SmartSystems software vault. Software may be installed on a mobile computer by using SmartSystems methods. See the SmartSystems On-line help for software installation options.
