

D5020 Ganging Jumper and Clip Instruction Sheet

You can use the ganging jumper and clip to connect multiple D5020 Communications Docks together. The ganging jumper and clip kit consists of four each of these parts:

- Ganging jumper
- Clip

The ganging jumper links the power between multiple communications docks. The clip connects the docks together. Use the ganging jumpers and clips to power up to five D5020 Communications Docks with one power cord.

Caution

To prevent electric shock or damage to your dock, do not connect more than five docks together.

Conseil

Ne connectez pas plus de cinq stations d'accueil ensemble.

To connect multiple docks

1. Unplug the power cord.
2. Connect the docks together by inserting a ganging jumper between each two docks.
