

DB9 Extender Instructions

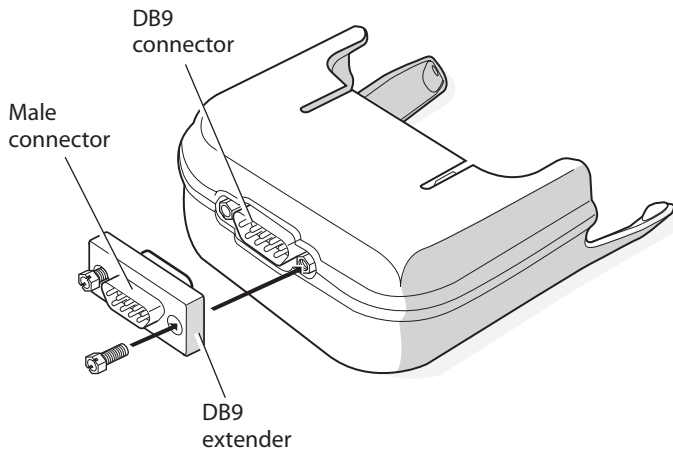

Use the DB9 Extender (P/N 592128) to be able to attach a button link reader to your CN2G or 751G serial adapter.

To install the DB9 extender

- 1 Remove the two screws from the female connector side of the DB9 extender.

- 2 Attach the female connector side of the DB9 extender to the DB9 connector on the serial adapter and insert the two screws.

DB9 extender: This example shows installing the DB9 extender on the CN2G serial adapter.
