

CK70 Mobile Computer Compliance Insert

Model 1001CP01C-H1

For Users in English-Speaking Regions (en)

Caution: This marking indicates that the user should read all included documentation before use. Retain this supplement for future reference.

Users of this product are cautioned to use accessories and peripherals approved by Intermec Technologies Corporation. The use of accessories other than those recommended, or changes to this product that are not approved by Intermec Technologies Corporation, may void the compliance of this product and may result in the loss of the user's authority to operate the equipment.

Battery and Power Supply Information

Caution: For use with Intermec battery pack Model 1001AB01 only. See battery instructions. For power supply, use Intermec Model 9001AE02 or Model 9002AX02. No user-serviceable parts.

Charge only in Intermec Models 1001CP01C-H1 or with base 1002UU01, 1002UU02, 1002UU03, 1002UU04, or 1002UU05 using 1002UC02 or 1002UD02 adapters. Use of incorrect charger may present a risk of fire or explosion. Promptly dispose of used battery pack according to the instructions.

802.11 Radio Precaution Statement

Caution: Users are responsible for configuring the channels of operation that comply with their country regulatory standards. A Wireless Network Administrator should review the operating restrictions detailed within the Access Point installation manual.

Radiation Exposure Statement

Warning: This equipment complies with International Commission on Non-Ionizing Radiation Protection (ICNIRP), IEEE C95.1, Federal Communications Commission Office of Engineering and Technology (OET) Bulletin 65, Canada RSS-102, and European Committee for Electrotechnical Standardization (CENELEC) limits for exposure to radio frequency (RF) radiation.

If a body worn accessory is not purchased from Intermec, the accessory must contain no metal and provide 1.50 cm (0.59 in) space between the device and the body.

Use of antennas and accessories not authorized may void the compliance of this product and may result in RF exposure beyond the limits established for this equipment.

To find RF exposure information, go to www.intermec.com > **Products** > **Computers** > **Handheld Computers** > **CK70** > **Manuals** tab, and then scroll down to **Regulatory Information**.

For Users in the U.S.A.

Scan Engine and Camera Flash Compliance and Precautions

This product is registered with the CDRH as a Class II laser Product (21 CFR Subchapter J, Part 1040). This product has a maximum output of 1 mW at 630-680 nm.

Caution: Use of controls or adjustments, or performance of procedures other than those specified herein, may result in hazardous laser light exposure.

Note: There are no controls or adjustments provided for routine operation or maintenance of the product. There are no user-serviceable parts inside this product.

This product complies with IEC 62471 for LED safety.

This product may use any of the following scan engines:

- EA30

To find Laser and Imager classification information for scan engines used in Intermec products, go to www.intermec.com > **Products** > **Computers** > **Handheld Computers** > **CK70** > **Manuals** tab, and then scroll down to **Regulatory Information**.

The camera assembly with flash is classified as: Risk Group 2.

Caution: When using the camera flash, keep the camera flash LED at least 317 mm (12.5 in) away from the subject's eyes. Otherwise serious damage to one's eyes may occur.

U.S.A. Digital Emissions Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the radio or television receiving antenna.
- Increase the separation between the computer equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the radio or television receiver is connected.
- Consult the dealer or an experienced radio television technician for help.

802.11a Radio Precaution Statement

Caution: 802.11a wireless LAN 5150 to 5250 MHz (5.15 to 5.25 GHz) (5 GHz radio channels 34 to 48) is restricted to indoor operations to reduce harmful interference to co-channel Mobile Satellite System (MSS) operations.

Caution: The maximum antenna gain permitted for devices in the bands 5250 to 5350 MHz and 5470 to 5725 MHz shall comply with the e.i.r.p. limit.

Caution: The maximum antenna gain permitted for devices in the band 5725 to 5825 MHz shall comply with the e.i.r.p. limits specified for point-to-point and non point-to-point operation as appropriate.

Caution: Be advised that high-power radars are allocated as primary users (i.e. priority users) of the bands 5250 to 5350 MHz and 5650 to 5850 MHz and that these radars could cause interference and/or damage to LE-LAN devices.
