CV60 Security Brackets Installation Guide - December 2003

*962-054-079A * Rev A

Packing List

Check to make sure the items shown on the next page were included in your shipment. If any item appears to be missing or damaged, contact your Inter-mec Sales Representative.

Introduction

The keyboard bracket secures the PS/2 cable connector against accidental disconnection.

The switch cover bracket guards against inadvertent resetting of the CV60 Data Collection PC while in use.

Mounting Brackets

Keyboard

Attach the PS/2 keyboard connector to the bottom of the CV60.

Align the bracket (P/N 654-571-001) so that the connector is held securely and tighten the bracket down with the screw (P/N 800-348-001) supplied.

Install the cable tie around the bracket and keyboard connector and tighten it securely.

Switch Cover

Attach the power connector to the power supply plug located at the bottom of the CV60. Tighten the connector.

Align the bracket (P/N 754-764-001) so that the connector is held securely and tighten the bracket down with the screw (P/N 800-348-003) supplied.
